

★ Environmental Photo Contest

The Lions Environmental Photo Contest provides a way for Lions and Leos to portray, through an original photo, their pride and commitment to improving, protecting and preserving the environment. Every Lion or Leo from a club in good standing can enter a photograph. The photograph should depict the local environment of the community the Lions or Leo Club serves. They must therefore be taken within the geographical area of MD105.

Entry Guidelines

The competition invites photos depicting a nature theme. At MD level there will be four categories:

- 1) **Plants**
- 2) **Animals**
- 3) **Weather phenomenon**
- 4) **Other aspects of nature including landscape**

This will allow more photographers the chance of winning the Multiple District competition. A winner will be chosen from each category and the overall winner will be selected from these category winners.

The photos must measure 8" x 10" (20.3 x 25.4cm). The photos must not include people. You can send a digital version of your photo to either email addresses below and state which category the image should be in and who is the photographer and Club but we will need a hard copy version sent in as well to our National Head quarters address shown below

The contest begins at club level and winning photographs will advance to the District and then Multiple District Competition. Winning District photos must reach Lions National HQ by **January 10th 2022** so that the Governors can choose the overall winner during the January Council meeting . The overall winner will be featured in the Lion magazine.
